About me

Product Designer with 4+ years of experience, specializing in **product strategy** and **design systems**.

I help shape digital banking experiences for millions of retail and corporate users worldwide. I make accessibility a product standard, which earned externally audited **WCAG 2.2** AA compliance, and I helped drive design system adoption across 4 **product teams**.

Based in **Porto, Portugal.** Available for **EU & remote.**

Experience

Product designer
ebankIT

2022 - Present

Co-managed the evolution of the Particles Design System from an ad-hoc UI kit into a scalable, versioned system, **now at v5.0.**

Led the design of an **AI banking assistant** that lets users send money and apply for products through in-chat widgets.

Designed **omnichannel financial products** across web, mobile, and emerging platforms including AR/VR.

Led the design of **out-of-the-box configurations** for our white-label banking product, expanding its capabilities and speeding up adaptation to client needs across **6 geographies.**

Helped design **low-code tools for customizing and managing digital banking channels in minutes**, saving project configuration time.

Authored product documentation and built a centralized repository for cross-team use, **reducing documentation time from weeks to days.**

Traffic manager
Blue Market Agency

2020 - 2022

Managed **lead-generation and pay-per-click campaigns** across Google and Meta Ads in LATAM, North America, and Europe on a combined **€100k annual budget**, and wrote the ad and landing page copy.

Trained and onboarded new interns.

Multimedia designer
Freelancer

2016 - 2020

Specialized in videography, timelapse production, communication design, and sound recording.

Delivered video and timelapse projects for **Airbus, Mercadona, LIDL, and Garcia & Garcia**, including long-running construction timelapses of LIDL's fulfillment center and Airbus's new facility in Santo Tirso, plus Mercadona's first supermarkets in Portugal.

Skills & Toolkit

Design stack

Code

HTML/CSS, React (AI-assisted), Markdown.

Systems thinking

Design tokens, Storybook, Figma MCP.

Pixel perfection

Android Studio, VS Code, Xcode.

Research

Maze, Lookback, Google Analytics.

Documentation

Archbee and Azure DevOps.

A11y

Stark, WCAG 2.2.

Education

2021 - 2022	**UX/UI Design**	EDIT. Disruptive Digital Education, Porto
2017 - 2019	**Master in Multimedia**	University of Porto
2014 - 2017	**BA in AV Communication and Multimedia**	Lusófona University of Porto

Beyond the screen

I'm a soundscape recorder and outdoorsman. I love cooking a nice meal or going kayaking. Lately, I've been trying to learn Greek (Γεια σας!)... I think it plays out well with being a bit of a history buff.

What I'm looking for

Projects with real-world impact, ideally in finance, logistics, healthcare, or tech. Teams that value empathy, initiative, earnest collaboration and structured thinking.
