

About me

+ 351 939 900 868
hello@marcelosousa.xyz
www.marcelosousa.xyz

I've been supporting IT companies in making their financial products accessible and pleasurable for millions of users. I'm passionate about **product strategy, digital accessibility,** and helping **design systems** grow 🌱.

Work experience

Product designer
ebankIT
2022 - Currently

Designed intuitive financial products for desktop and mobile platforms.
Enhanced out-of-the-box configurations for project teams with powerful theming and component styling – a great asset for project teams.
Crafted low-code tools to help Developers and FIs quickly set up and customise their banking channels.
Co-managed the evolution of the Particles Design System – from a ad-hoc UI kit into a scalable, versioned system.
Authored detailed product documentation and helped build a centralised repository to support teams across our organisation.

Campaign manager
Blue Market Agency
2020 - 2022

Traffic manager responsible for lead generation, pay-per-click campaigns in Google & Meta Ads and some successful copywriting.
Helped train a couple of new interns and learned a lot in the process.

Multimedia Designer
Freelancer
2016 - 2020

Hands-on multimedia designer and technician for a range of great products and industries.
Communication design, videography, timelapse production, and sound recording.

Skills

Toolkit

Design

Accessibility (WCAG 2) | Design systems | UX writing | User research | Wireframing | Prototyping | Design documentation.

Education	UX/UI Design EDIT: Disruptive Digital Education 2021 - 2022	Training in user research and usability testing, content strategy, interaction design, UI design & prototyping, and visual design.
	Master in Multimedia University of Porto 2017 - 2019	Development of advanced work in the field of multimedia and music technologies.
	BA in Audiovisual Communication and Multimedia Lusófona University of Porto 2017 - 2019	Training in photography, video, sound design, 3D animation, communication and web design.
Beyond the screen	When I'm not tinkering with UIs or going around user research data, I'm probably out recording soundscapes, cooking a nice meal, or kayaking. Lately, I've been trying to get into analog film photography.	
	I also helped create artworks exhibited at festivals or art galleries such as Porto Post Doc, Semibreve, and Espaço MIRA.	
What I'm looking for	Projects with real-world impact, ideally in finance, logistics, healthcare, or tech. A team that values empathy, initiative, earnest collaboration and structured thinking.
